

# Enabling Keyboard Navigation in Safari

## for SPEC Employees and Volunteers

### Background

This job aid is intended to assist individuals with disabilities in the activation of keyboard navigation in Safari for a Mac. Keyboard navigation will be needed to utilize the SPECforce VITA/TCE Volunteer and Partner Sign Up Form and the Site Locator. The job aid provides direction for general use.

### General Information

To enable keyboard navigation in Safari, following the steps below:

1. Navigate to Safari to open it
2. Navigate to Settings
3. Click Advanced
4. In the Accessibility section, activate "Press Tab to highlight each item on a webpage"
5. Close Settings

For additional accessibility information, use this link to access "**Get Started with accessibility features on Mac**" in the online Mac User Guide.
